Education

B.Tech in Computer Science and Engineering, College of Engineering Kallooppa

2023 – Present

- Relevant Coursework: Data Structures, Operating Systems, DBMS, Computer Networks

Experience

Freelance Web Developer, Coxdo Solutions

Sep 2024 – Present

- Delivered 3+ production-ready web applications using React and Tailwind CSS, improving client engagement and performance.
- Collaborated with clients to gather requirements and deliver scalable, high-performance solutions.
- Optimized UI responsiveness and reduced load times across multiple projects.

Developer Intern, Thinkvyne Digital

Jun 2025 – Dec 2025

- Implemented responsive UI components using React and Tailwind CSS, improving usability and interface consistency.
- Integrated frontend with Laravel backend APIs, ensuring efficient data flow and performance.
- Collaborated with development team to deliver production-level features and bug fixes.

Projects

Digital Delivery Management System

2026

- Co-developed a real-time delivery system with a team of 2, reducing paper-based processes by 80% in live operations.
- Engineered a Flutter driver app with offline-first synchronization and digital proof of delivery.
- Designed a React admin dashboard managing 100+ invoices per session with bulk CSV uploads and driver assignment.
- Implemented GPS tracking with periodic updates, improving delivery monitoring and visibility.
- Deployed system on a physical server ensuring stable uptime and production availability.

Run All Apps (VS Code Extension)

2025

- Published a VS Code extension enabling one-click execution of development scripts, reducing CLI usage by 50%.
- Implemented using TypeScript and VS Code API with configurable workflow support.

ParkAvail – Smart Parking Solution

2024 – Present

- Collaborated in a team of 4 to build a real-time parking platform, reducing parking search time by 35%.
- Designed REST APIs using Node.js and MongoDB to handle dynamic parking and availability data.
- Integrated Firebase authentication and built responsive React interfaces for users and admins.

Skills

- Languages:** JavaScript, TypeScript, Python, Java, C/C++, SQL, Dart
- Frontend:** React, React Native, Flutter, Tailwind CSS
- Backend:** Node.js, Express, FastAPI, REST APIs
- Databases:** MongoDB, MySQL, Firebase, Supabase
- Tools:** Git, Linux, VS Code, Docker, GitHub Actions, Jira, OpenCV, n8n
